11/1/2012	Clinton	East Clinton Local ³	Income Tax	1.25%	\$ 230,650
				Total	\$ 90,388,423

¹ Calculated by examining how much money is raised on what income tax rate is already in effect in that district, according to the Ohio Department of Taxation. Then it is translated to the asked for levy amount. So if the district already collects 1%, which raises \$1 million for the district, then it seeks a new, .5% levy, the amount raised would be \$500,000

² These figures come from news reports about the levy issue

³ These figures come from the district, either through responses to IO inquiries or from district-sponsored websites or documents

⁴ The amount includes income tax levy ONLY because the other issue deals with capital expenses
